EVIDENCE-BASED MEDICINE | CLINICAL VALIDATION | CLINICAL AI

Registered pharmacist with 25+ years of licensed clinical practice who critically evaluates evidence, validates information before it reaches clinicians and patients, and explains complex clinical decisions to clinical, business, and lay audiences. A daily UpToDate user who holds every AI output to a primary-source standard.

HOW I MEET YOUR REQUIREMENTS	
EVIDENCE-BASED MEDICINE	Led PubMed and UpToDate review; separates established from speculative findings.
CLINICAL VALIDATION	Checks every claim against primary sources before use.
MEDICAL EDUCATION	Three MD, DO, and NP cohorts; national HCP training.
RESEARCH AND OUTCOMES	Outcome-tracking instruments in use since 2016.
GENERATIVE AI	Prototyped an AI lab-trend dashboard; directs Claude Code workflows.
COMPLEX COMMUNICATION	Explains clinical decisions to clinical, business, and lay audiences.

Professional Experience

INFINITE HEALTH PLLC / HEALTHY KIDS, HAPPY MOMS

2015 - MAY 2026 | CHARLOTTE, NC

Integrative Pharmacist, Clinical Education and Healthcare Strategy
Practice Development Lead

- Researched the literature for complex cases, including a pediatric patient with PSC and IBD co-managed with an academic medical center; presented staged plans with full citations to the physician and family and tracked labs on repeat testing.
- Designed structured intake and longitudinal follow-up instruments, in use since 2016, capturing symptoms, therapy changes, adherence, and outcomes as real-world data used to refine protocols.
- Designed and prototyped an AI-assisted lab dashboard: lab PDFs extracted into time-series data, AI-summarized trends, and practitioner review before any supplement, medication, or lifestyle change.
- Built the practice's clinical systems and its education for public, practitioner, and patient audiences.
- Led three twice-monthly Integrative Pediatrics Practitioner Mentorship cohorts for MDs, DOs, and NPs: case-based clinical reasoning, medication and supplement education, and test interpretation.
- Directed Claude and Claude Code (agentic AI) through multi-step research, drafting, document-building, and scheduled search workflows, writing the standards they follow and catching inaccuracies, omissions, and overstated claims before use.
