PROMPT ENGINEERING | AI EVALUATION | CLINICAL VALIDATION

Registered pharmacist who builds with generative AI. Writes the prompts and specifications that direct AI coding agents and large language models (LLMs) to build, test, and deploy working tools, then evaluates every output with 25+ years of clinical judgment across medications, nutrition, and the body's interconnected systems. Prototyped an AI-assisted lab-trend dashboard with practitioner review, led an EHR implementation, and holds every AI claim to a primary-source standard.

HOW I MEET YOUR REQUIREMENTS	
PROMPT ENGINEERING	Structured prompts and specifications for LLM workflows.
AI CODING AGENTS	Directs Claude Code to build, test, and deploy working tools.
AI OUTPUT EVALUATION	Catches inaccuracies, omissions, and overstated claims.
AUTOMATED QA CHECKS	Built reusable AI skills with explicit pass and fail criteria.
CLINICAL JUDGMENT	25+ years of licensed practice, 15 in high-volume pharmacy.
HEALTH INFORMATICS	Led the Elation EHR rollout; prototyped an AI lab dashboard.

Selected AI Projects (2026)

- Directed Claude Code, an AI coding agent, with written specifications to build, test, and deploy working tools, reviewing every result before it was used.
- Designed reusable AI skills with explicit pass and fail criteria: an applicant-tracking readability checker and a proofreading checker that run on every document.
- Built and launched a professional website on GitHub Pages through AI-directed development, with live link testing before each publish.
- Set up a scheduled cloud AI agent that searches job postings daily against written criteria, and a pipeline that builds tailored documents from one structured source.

Professional Experience

INFINITE HEALTH PLLC / HEALTHY KIDS, HAPPY MOMS

2015 - MAY 2026 | CHARLOTTE, NC

Integrative Pharmacist, Clinical Education and Healthcare Strategy
Practice Development Lead

- Designed and prototyped an AI-assisted lab dashboard: lab PDFs extracted into time-series data, AI-summarized trends, and practitioner review before any supplement, medication, or lifestyle change.
- Led selection and implementation of Elation EHR and Hint as an early adopter, integrating lab portals and Zoom; the virtual workflows enabled a rapid move to fully virtual care.
- Co-designed the practice's membership enrollment, Zoom orientation, and structured intake (2016 onward), standardizing the information collected from each family.

Clinical AI and Pharmacy Informatics

AI PROMPTING | AI EVALUATION | CLINICAL AI | INFORMATICS

Why Deborah Fits Clinical AI and Pharmacy Informatics Roles

Registered pharmacist with 25+ years of licensed practice who builds with AI. She writes the prompts and specifications that direct AI coding agents and large language models to build, test, and deploy working tools, and she evaluates every output with a clinician's judgment across medications, nutrition, and the body's interconnected systems. She prototyped an AI-assisted lab-trend dashboard and led an EHR implementation.

25+ YEARS	**5**	**2**	**ACTIVE RPH**
licensed clinical practice	AI platforms in regular use	AI quality-check skills built	NC #14013, under Deborah M. Allen

Typical Responsibilities: How Deborah Delivers

AI PROMPTING AND AI-DIRECTED BUILDING

Write effective prompts and specifications for AI	**DIRECT EVIDENCE** Writes multi-step instructions and the standards AI tools follow for research, drafting, document building, and scheduled job searches.
Direct AI coding agents to build, test, and deploy tools	**DIRECT EVIDENCE** Directs Claude Code to build, test, and deploy tools, including a document pipeline, a live professional website on GitHub Pages, and a scheduled cloud search agent.
Build automated quality checks	**EXCEEDS REQUIREMENT** Designed reusable AI skills with explicit pass and fail criteria: an applicant-tracking readability checker and a proofreading checker that run on every document.

CLINICAL VALIDATION AND HEALTH TECHNOLOGY

Evaluate AI output for clinical accuracy	**DIRECT EVIDENCE** Catches inaccuracies, omissions, and overstated claims before use, and verifies every claim against primary sources in PubMed and UpToDate.
Apply AI to clinical data	**DIRECT EVIDENCE** Prototyped an AI-assisted lab dashboard that turned lab PDFs into time-series data and AI-summarized trends, with practitioner review before any change.
Implement clinical technology	**DIRECT EVIDENCE** Led selection and implementation of Elation EHR and Hint, integrating lab portals and Zoom for a rapid move to virtual care.

CLINICAL AI AND INFORMATICS

Common Qualifications: Met and Exceeded

PharmD, RPh, or an equivalent degree	DIRECT EVIDENCE Bachelor of Science in Pharmacy with an active NC RPh license #14013 (issued under Deborah M. Allen), the standard entry-level pharmacist degree before the national PharmD transition.
Hands-on experience with generative AI and LLMs	EXCEEDS REQUIREMENT Uses Claude, Claude Code, ChatGPT, Gemini, Perplexity, and Copilot, and directs agentic AI through multi-step, scheduled workflows.
Programming or software development	QUALIFICATION CONTEXT Does not write code by hand. Directs AI coding agents with precise specifications, tests the results, and verifies them before use.
Five or more years of clinical practice	EXCEEDS REQUIREMENT Twenty-five years, including 15 in high-volume pharmacy practice with daily patient care.

What Deborah Brings to Your Team

- Prompts and specifications that get AI to the right result the first time.
- Clinical judgment that catches what an AI gets wrong.
- Working tools built and shipped with AI coding agents.
- A teacher's ability to help clinicians use AI safely.
- Hands-on health informatics: an EHR implementation and a prototyped AI lab-trend dashboard.

Career Highlights

AI prototype
designed an AI-assisted lab dashboard that turns lab PDFs into trends, with a practitioner approving every change

Verified output
directs agentic AI tools for research and drafting, and checks every claim against primary sources

Virtual care
led the Elation EHR and Hint implementation that enabled a rapid move to virtual care
