NUTRITIONAL BIOCHEMISTRY | SUPPLEMENTS | SCIENTIFIC CONTENT

Functional-medicine pharmacist whose range spans the interconnected body: how the gut, immune, nervous, endocrine, and metabolic systems influence one another, and how medications, nutrition, and supplements act across them. Led development and scaling of a private-label dietary supplement line, from formulation, sourcing, and Certificate of Analysis (COA) review to Supplement Facts, DSHEA structure/function claims, and the FDA disclaimer. Reads functional and conventional labs as one connected picture, grounded in nutritional biochemistry and drug-nutrient safety.

HOW I MEET YOUR REQUIREMENTS	
SUPPLEMENT SCIENCE	Led a private-label line of about $360,000 a year.
QUALITY AND SOURCING	Batch COA review, lot records, and alternate suppliers.
CLAIMS AND LABELING	DSHEA structure/function claims and Supplement Facts.
LAB INTERPRETATION	Stool, organic acids, nutrigenomic, and optimal-range labs.
DRUG-NUTRIENT SAFETY	Screened every supplement plan for interactions.
HCP EDUCATION	Three MD, DO, and NP practitioner mentorship cohorts.

Professional Experience

INFINITE HEALTH PLLC / HEALTHY KIDS, HAPPY MOMS

2015 - MAY 2026 | CHARLOTTE, NC

Integrative Pharmacist, Clinical Education and Healthcare Strategy
Practice Development Lead

- Built the practice's clinical systems and its full education program for public, practitioner, and patient audiences, from blog posts and product copy to handouts and care plans.
- Integrated GI-MAP, Doctor's Data, and Genova stool analyses and organic acids profiles with conventional labs read against optimal ranges into one connected clinical picture.
- As primary evidence, formulation, and product-research lead, introduced Emerson Ecologics practitioner fulfillment, moved the practice to in-office inventory, then led development and scaling of a private-label line generating approximately **$360,000 annually**.
- Owned the line from formulation and sourcing to Supplement Facts, DSHEA structure/function claims, and forecasting; reviewed batch Certificates of Analysis and kept lot-traceability records.
- Attended SupplySide East and independently sourced alternate suppliers during a six-month backorder of the top-selling probiotic.
- Escalated an evidence-based efficacy concern about a reformulated product, and the manufacturer restored the more effective prior formula.
- Researched in PubMed and UpToDate with AI-accelerated search, synthesis, and drafting, verifying every claim against primary sources.
