PHARMACY LEADERSHIP | MEDICATION SAFETY | PATIENT CARE

Registered pharmacist with an active North Carolina license and 25+ years in pharmacy and healthcare. Spent 15 years in high-volume pharmacy practice at Target: opened the Stonecrest pharmacy as Pharmacy Manager, then directed staff, workflow, and inventory as pharmacist in charge on manager-off shifts. From 2015 to 2026, reviewed complex medication and supplement regimens in an integrative practice, weighing how each therapy acts across the body's interconnected systems.

HOW I MEET YOUR REQUIREMENTS	
PHARMACY LEADERSHIP	Opened Stonecrest as Pharmacy Manager; led Y2K readiness.
PHARMACY OPERATIONS	Pharmacist in charge: technicians, workflow, inventory.
DRUG UTILIZATION REVIEW (DUR)	Evaluated prescriptions for interactions, allergies, and dose.
DRUG-SUPPLEMENT INTERACTIONS	A decade reviewing medication and supplement regimens.
PRIOR AUTHORIZATION	Resolved PAs and Medicaid rejections with prescribers.
STAFF TRAINING	Cross-trained staff; taught a 6-hour Carolinas CE program.

Professional Experience

INFINITE HEALTH PLLC / HEALTHY KIDS, HAPPY MOMS

2015 - MAY 2026 | CHARLOTTE, NC

Integrative Pharmacist, Clinical Education and Healthcare Strategy
Practice Development Lead

- Reviewed medication and supplement regimens for drug-drug, drug-supplement, and drug-nutrient interactions, allergies, duplications, and appropriateness, often for medically complex patients on multiple therapies.
- Used lab results and patient-reported symptoms to monitor therapy effectiveness and recommend adjustments to the physician.
- Resolved medication and lab authorizations and coverage barriers, coordinating among patients, prescribers, labs, and pharmacies.
- Built the practice's clinical systems and protocol guides, then trained staff and practitioners to apply them consistently.
- Led three twice-monthly practitioner mentorship cohorts for MDs, DOs, and NPs: case review, medication and supplement education, and test interpretation.
- Led the HelloHealth-to-Elation EHR migration, including clinical templates and coordination of outside lab data, and championed early adoption of Hint Health.
- Led development and scaling of a private-label supplement line of 25 formulations, generating about **$360,000 a year**, from formula selection and sourcing to final label approval.
- Escalated an evidence-based efficacy concern about a reformulated product; the manufacturer restored the original formula.
